EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Reginald J. Hill on 6/13/2006.

The application has been amended as follows:

- Claim 1 has been amended as follows:

A packet data terminal comprising:

a digital-to-analog converter, for receiving a first packet data stream and a second packet data stream and converting the first packet data stream and the second packet data stream into a first analog representation and a second analog representation, respectively; and

a selective mixer, coupled to the digital-to-analog converter, for selectively mixing the first analog representation and the second analog representation to provide one of a mixed and a non-mixed output[.];

a mixer digitizer, operably coupled to the selective mixer, that:

receives the one of the mixed and the non-mixed analog

output from the selective mixer,
mixes the one of the mixed and the non-mixed analog
output with voice from a microphone to generate mixed voice,
and
converts the mixed voice into packet data; and
a multiplexer, coupled to the digital mixer, that distributes the
packet data.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

- Regarding claim 1,

The prior art of record does not teach or fairly suggest a method, apparatus, or system with a selective mixer, coupled to the digital-to analog converter, and a mixer digitizer, operably coupled to the selective mixer, that receives the one of the mixed and the non-mixed analog output from the selective mixer, mixes the one of the mixed and the non-mixed analog output with voice from a microphone to generate mixed voice, and converts the mixed voice into packet data, and a multiplexer, coupled to the digital mixer, that distributes the packet data.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
